Please let our team know if you have any allergies or dietary requirements.

All dishes are prepared in our kitchen; trace amounts of allergens may still be present.

There is a body of evidence developing that frying food in seed oils carries a range of health risks. To minimise these risks, and to maximise deliciousness, we're using beef tallow in our deep fryers. If for cultural, religious or dietary reasons you would prefer your meal prepared using a non-meat alternative, please advise your server and we'll happily accommodate your preferences.
